

Electrical, Instrumentation & Controls Electrician

Job Summary

This position performs duties under the general direction of the Electrical Department Superintendent. This non-exempt full-time position is responsible for installation, maintenance, modifications, and troubleshooting of electrical, instrumentation and controls systems in an industrial environment. The person must demonstrate a high level of self-motivation and the ability to complete jobs without oversight.

Knowledge & Skill Requirements

1. Licensed Electrician preferred or the experience and ability to become licensed. Equivalent education and experience considered.
2. Hands-on experience with conduit, wiring systems and fixtures layout, installation, and troubleshooting.
3. Proficient in the use of common hand tools and hand-held power tools, and their safe operation while following OSHA and company safety guidelines.
4. Experience and understanding of 480VAC, 3PH electrical systems, preferred.
5. Experienced in the use of electrical diagnostic equipment such as multimeters and amp clamps, preferred.
6. Must possess problem solving and troubleshooting skills.
7. Excellent communication skills, both written and verbal.
8. Familiar with the use of computers for equipment troubleshooting/configuration connections and operating MS Office software to create and modify spreadsheets, work orders, email, etc.
9. Proficient in the use of common hand tools and hand-held power tools, and their safe operation while following OSHA and company safety guidelines.
10. Ability to work cooperatively as a team member.
11. Hold a valid Colorado Driver's License.
